PROFESSIONAL SUMMARY

Results-driven Front-end developer specializing in creating intuitive and visually appealing web applications. Collaborative with cross-functional teams to deliver high-quality front-end development solutions. Experienced in using HTML5, CSS3, and JavaScript framework like React. Adept at translating design concepts into responsive and interactive user interfaces. Strong focus on performance optimization and accessibility. Committed to staying current with industry trends and best practices. Seeking a new opportunity to contribute technical expertise and creativity to a dynamic tech company.

WORK HISTORY

Front-End Developer   June/2022 - Current
Nedgab Consults Ltd, Abakaliki, Ebonyi State Nigeria

- Collaborated remotely with cross-functional teams to develop and maintain user-friendly web applications, ensuring seamless user experiences across various devices and browsers.
- Created a user-friendly and informative website for Nedgab Consults, showcasing their services and expertise. Implemented modern design principles and ensured seamless user experience across various devices and browsers.
  (https://github.com/gabrielchibueze/nedgab-consults-website)
- Translated design mockups and wireframes into responsive and interactive web pages using HTML5, JavaScript, CSS3, and React framework.
- Implemented front-end best practices, including modular and reusable code, performance optimization, and accessibility considerations, resulting in a 20% improvement in page load times.
- Conducted code reviews and provided constructive feedback to team members, fostering a culture of continuous improvement and knowledge sharing.
- Participated in Agile development cycles, contributing to project planning.

Materials Engineering Manager   Jan/2023 –May/2023
Rezon Ltd, Stanley, Durham

- Gathered requirements for ongoing projects and organized details for management use.
- Developed project plans using Gantt Chart and assigned tasks,

SKILLS

- Front-end development: HTML5, CSS3, JavaScript, React
- Responsive web design and mobile optimization
- UI/UX design principles and prototyping
- Git version control
- Web performance optimization and page speed
- Cross-browser compatibility and testing
- Agile methodologies
- Problem-solving and debugging
- Good communication and presentation
- Product improvement
- Flexible team member
- Resource identification

schedules, critical paths, and deadlines to projects.

- Managed scopes and deadlines using Agile project Management method.
